

WHITE PAPER

ASPT is an innovative cryptocurrency token designed to enhance the petroleum industry with transparency and efficiency in global energy markets, especially in the MENA region.

AspetroToken (ASPT) – Whitepaper

Version: 1.0

Date: July 2025

Project Name: AspetroToken (ASPT)

Official Website: <https://aspetroverse.com>

Contact Email: info@aspetroverse.com

Smart Contract Address: 0x839E7346601f47606Fe6C948F814759a7509dc6f

Network: Ethereum Mainnet

Token Standard: ERC-20

Introduction

AspetroToken (ASPT) is the core utility and governance token of the Aspetro ecosystem — a comprehensive blockchain and financial infrastructure built to serve the MENA region and the global market. Designed with scalability, transparency, and strategic integration at its core, ASPT powers our decentralized exchange (DEX), centralized exchange (CEX), Forex brokerage, staking platform, gaming systems, NFT marketplace, and RWA tokenization services.

Mission

Our mission is to bridge traditional and decentralized finance through a unified platform that empowers users across the MENA region and worldwide. ASPT serves as the fuel for all transactions and incentives within the Aspetroverse.

Token Utility

- Used as gas within Aspetro platforms (CEX, DEX, GameFi, etc.)
- Rewards for staking, referrals, and community contributions
- Used for NFT purchases, in-game upgrades, and fee discounts
- Backbone for governance, DAO voting, and treasury proposals
- Conversion medium within Forex and crypto liquidity pairs

Token Specification

- Name: AspetroToken
- Symbol: ASPT
- Decimals: 18
- Total Supply: Unlimited (controlled by governance & treasury rules)
- Contract Address: 0x839E7346601f47606Fe6C948F814759a7509dc6f
- Minting: Restricted to the contract owner (treasury governance)
- Burning: Owner-controlled for strategic deflationary measures

Governance

The ASPT token will be governed by a decentralized autonomous organization (DAO). Token holders will vote on major decisions including treasury management, emission control, strategic integrations, and protocol-level upgrades.

Ecosystem Components

- Aspetro CEX – Centralized Exchange
- AspetroSwap – Decentralized Exchange
- Aspetro FX – Forex Brokerage
- Aspetro NFT – NFT Marketplace
- Aspetro Games – GameFi Platform
- Aspetro RWA – Real-World Asset Tokenization
- Other Modules: Bridge, Lending, Insurance, Wallet, AI Analytics

Roadmap Summary

- ✅ Q2 2025: ASPT token deployed on Ethereum Mainnet
- ✅ Q3 2025: Ownership transferred and contract verified
- ✅ Q3 2025: Integration of ecosystem components begins
- 🕒 Q4 2025: Listing on CoinGecko, CoinMarketCap, and global CEXs
- 🕒 Q4 2025: DAO and Governance Portal launch
- 🕒 Q1 2026: RWA and NFT integration for MENA-based assets
